The fundamental fact about prayer is suggested by the first work of the Lord's prayer—"Our Father." Prayer is loving inter-conrac hetween the child and its tather. N OCTOBER the Training College will be opened for the new Session for the Training of Officers.

If you are eligible for the work you ought to be a Candidate for Officership!

Are you a Candidate?

Here are some reasons why, if you are a Godly, healthy, common sible young woman, you quebt to apply for the Work

At this terrible period our young men are enlisting in the service of their King and country. They cannot prepare for the Training Colleges of The Salvation Army and the battlefields of Europe at the same time, therefore, young women must take their place; and that means double the usual number of young women must apply for Officership this year.

Young women Salvationists! Do you take that in?

The Salvation Army in Canada requires twice the usual number of young women Cadets next Session, to make up for the absence of male Cadets. And, in order to enter the Training College next October, you should apply at once. If you apply now time will permit your case to be dealt with and you to be accepted for the next Session, you must

apply for Officership now!

You have been thinking over it and praying about it for a considerable time, won't you begin to Act Now? Make the sacrifice for God, and do what your conscience prompts you.

You are wanted for Officership in order that you may have a wider

opportunity to save souls than you have at present. Mothers and fathers. wives, and children need spiritual comfort and consolation at this time You are wanted to consecrate yourself to God to be a messeurer of comfort to them

# FIFTY YEARS of SALVATION

### DISCOVERING A DESTINY What God Hath Wrought

N the 5th of July last was completed the first halfrentury of The Salvation Army's activities, for it was oo that date, in the year 1865, that the thea Rev. William Boath commenced mission work in the East End of London and "found his dection

The writer well remembers hearing The Army's Founder say, in tones that thrilled a mighty audience gathered from the ends of all the earth in a temporary temple in the Strand, London, England in the year 1904:-

"I walked back to our West End home and said to my wife: "O Kate, I take found my desting! These I take found my desting! These I take found my desting! These I have been longing all these years. As I passed by the doors of the flaming gin palaces to night! I seemed to hear-a voice sounding in my ears. "Where can you go and find such heathed as these, and where is there so great a need for your labours." And there and thou is most been used to be a fine of the children up to this great work. Those people shall be our people, and they shall have our God for their God!"

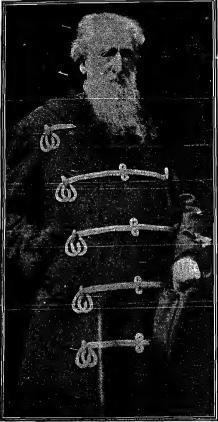

From this humble beginning

From this humble beginning sprang the world-wide Movementwhich, at the end of fifty years, operates in 39 languages, in 60 countries and colonies having 0.673 Corns and Outposts, and 1,173 Social Institutions for the care of the neglected and suffering coor

#### WHAT GOD WROUGHT

It was in the mind of The General that the Jubilee of The Salvation Army shoold be celebrated in every country where the Flag flies with that joyous enthusiasm, so characteristic of Salvationists, and in that spirit of grateful thanksgiving which the event calls for: but how shall we sing the songs of joy when the world is so full of woe and desolation, and when so many of our Salvation Soldiers are in military train ing camps, or the shell-torn trenches? We hope that the day will speedily come when, with worldpeace firmly established, The Salvation Army shall fittingly celebrate its imbilee, and the alarms of war be no more felt. But in the meantime It may not be out of place for es to show in a measure what God bath wrought through The Salva-

tion Army. The Salvation Army did not begin in a big way; there were no backers with unlimited canital to smance the new enterprise. As a of fact, the People's Market which initimately became the Hendquarters of the Organization, was to be sold for \$15,000. For

Each issue of The Salvation Army press that chronicles the doings of the Organization, contains a total of 1.204.222 copies; while The Salvation Army's Institutions for the moor and outcast can accommodate over 30,000 each night

The Salvation Army has two hundred ways of serving the people, which range from Life-Savine Scouts and Gnards to Midaight Drunkards Brigades; from Free Meals to Famine Loan Funds; from Fresh-Air Camps to Leper Colonies, and from Hotels for war workers to Motor Ambulances and Red Cross

#### SPECIAL ACTIVITIES

The Army's operations have special activities for the well-heing of the Churchless masses; the Heathen; the linemplaced; the Stars. ing; the Panpers; the Homeless; the Drunkards; the Criminal; the Daughters of Shame: for National Service Men; Shun Work; the Sick; the Lost; Protective Work for Young Girls: fur Travellere for the Aged, the Deaf and Dumb; also Ami-Suicide Bureaux, Home Leagues, Children's Work, Land Schemes, Poor Men's Lawren Trade, Banks, and Assurance.

In connection with the forezains phages of Salvation Army Work 62,000 tutoaid Local Officers are employed, with a large number of Salentioniete without cank who out of love, labour for God and souls and the social well-heing of their fellows

From the very earliest days of the Movement its General saw the neeessity for entering to the physical needs of those whom he sought to spiritually bless. The first social 'People's Soup Kitchen" in the Whitechapel Headquarters, coneerning which The General said: ecroing which The General salt; "We intend this People's Soun Ric-chen to be a half-way house to the People's Mission Hall, and this sal-isfying of the outer man with the bread that persibeth; we hope, will lead on to the satisfying of the num ans with the bread which a man salt he shall live for ever."

In view of the foregoing, it is of interest to know that The Salvation Army, in its Cheap Food Depots, supplies thirteen and a half million meals annually, and nearly eight million beds in its Shelters for homeless men and women.

Up to the beginning of the war, The Salvation Army had two has dred Industrial Institutions for workless men, and during the year 1914 over 100,000 men were supplied with permanent and temporary work and during the same period 99,000 situations were found for the inemployed in connection with The Army's Labour Bureaux

There are also other activities such as three Hospitals mine Dispensaries, sixteen Village Banks, and thirty-four Criminal Scittlements.

#### APPRECIATION OF RULERS

The Army's operations were start ed in India about thirty-three years ago, and, to show how the Organization was regarded, the leader, then Major Tucker, was put into jail for a month. In 1913 a striking evideuce of the change in opinion was shown when the list of honours on the King's Birthday showed that the Order of the Kaiser-i-Hind was conferred on Commissioner Booth-Tucked "for public service in India."

In Japan, where The Army is making splendid progress the Emperor showed his appreciation of our Work last year by contributing \$1.500 to The Army's funds, and conferring a birthday honour on the Second in Command of The Army's forces for service rendered to the

In the Dutch East Indies not only is a splendid work of bringing the natives to a saving knowledge of Christ being carried on-in the Celcbes Islands a thousand natives declared their allegiance to Christ in one meeting-but the Government has sought the aid and counsel of The Army in many ways, The Leper Colonies in Java and Sumatra are secomplishing most useful work; while the medical work is producing results little short of miraculous Upwards of 130 patients are dealt rith each day, in connection with the William Booth Memorial Eye Hospital at Semarang.

#### MORE VIRILE THAN EVER

All round the world-wide battle lines The Salvation Army, in the ring with a vigour and success that exceeds any other period. It is also reaking the lines of heathenism and in, for during the year a plonder

for the people, especially for the less-fortunate citizens of the Em-pire. I think that work is carried

on with great ability, and with much self-sacrifice and unselfish real. I trust that it will go for-ward in all parts of the world, and that the blessing of God will continue to rest upon you.

How The Salvation Army is regarded in the land of its birth and other, portions of the English-speaking world, may be inferred from the following extracts of the cordial messages received by The General at the International Congress of June, 1914. His Majesty King George said:

"I desire to offer warm con-gratulations, both on my own behalf and on that of His Mapenalt and on that of His Ma-jesty's Government, to The Sal-vation Army, . . . and to send all good wishes for the continued success of its world-wide activi-ties, which have for so long ex-cited the admiration of Christian men and women of all denomina-tions,"

There were numerous other messages from all parts of the British Empire, and other nations.

At this Congress The General made the striking statement that during the last decade of its evistence The Army had made a onethird advance in all its branches. Could a more striking tribute to the splendid virility and good standing of The Salvation Army be desired than the foregoine?

We have indicated the humble origin of The Salvation Army and irs Formler. The late W. T. Stead, who went down in the ill-rate. #### THE SECRET OF IT ALL

What was the secret of the power of The Army's first General? Tocareer, he was asked by one to put phrase the secret of his remarkable success. The General, atter a short pause, gave utterance to this pregnant remark:--

"I owe all the success I have to the fact that I said, 'God should have all there is of Wil-liam Booth."

General Bramwell Booth assumed command of The Army on August 21st, 1912, since when God has given abundant manifestation that His blessing is upon him and Mrs. Booth -and, making allowances for the ravages in The Army's ranks by the European war, the future of The. Army was never so bright or so asanthropic work." sured as at this, the conclusion of The Print Minister of the Daited. The Salvation Army's Stileth was

HAVE said that my new scheme for making a fortune got nipped in the bud. This is how it hap-perned. Along towards four o'clock io the afternoon a crowd of young costers, who had evidently been imbibing too freely, came to our tent. They all wanted to enter at once, but I had strongly impress-ed on Bob that he was underson circumstances to allone time.

I heard the crowd coming with a rush, and shouting to Bob to save himself, I dashed out of the tent and made for the next show, where Lulu the fattest woman on earth, was displaying her proportions to the curious for a penny a bead.
